

Press Release

The Hellenic-Dutch Association of Commerce & Industry (He.D.A.) participates in Exportgate.gr!

Exportgate is an initiative of Eurobank, in cooperation with the Panhellenic Exporters Association (PSE), the Greek International Business Association (SEVE), the Exporters Association of Crete (EAC), SEV Hellenic Federation of Enterprises and the main bilateral chambers of commerce in Greece. The initiative is under the auspices of the Ministry for Development Competitiveness, Infrastructure, Transport & Networks.

In Exportgate, bilateral chambers, international associations and counterparties play an important role as Trade Facilitators to the Companies' endeavors to expand their international activities. Thus, they gain access to the most modern digital tools to host specialized Mini-Portals, publish information on their events and news, and network with Portal members. Mini-Portal's content is, dynamically and on a systematic basis, circulated to all member companies through Newsletters/Bulletins/Newscasts.

In this context, He.D.A. has created its dedicated Mini-Portal in Exportgate, aiming at exploiting the user-friendly tools, digital networking facilities and engagement practices in order to communicate its updates, invitations, news and announcements to the Portal members. Companies may register and become members at www.Exportgate.gr follow the He.D.A mini-portal and stay tuned at all times regarding their business activities. At the same time, Exportgate members have full access to:

- Business and Trade-related Information

30.000 market reports on exporting to international markets. Trade related analyses, custom controls documents, barriers to entry, facts and figures on exporting to more than 180 countries worldwide. The rich content of the Portal covers the macroeconomic, legal & tax, financial, statistics, trade analyses and consumer behavior aspects for most countries worldwide.

- Trade Know-How

Exportgate.gr offers consultation from the “Ask the Experts” trade team with regard to stages of exporting activity, financing solutions alternatives, useful online tools and calculators for the estimating cost of exports etc.

- Networking tools

Companies search, select and network with potential counterparties from every part of the world. The portal incorporates state-of-the-art networking tools that can facilitate interaction among 4.500 companies - portal members from 40 countries. Electronic tools provide data for more than 25.000 importers from USA, India, China. At the same time, data and financial reports for 200 mil companies are available in cooperation with Dun & Bradstreet (D&B).

Visit Exportgate.gr and explore its potential!
